

Bakelite Synthetics Insulation Binders

APPLICATION		PRODUCT	BENEFITS											
Glass Wool	Stone Wool		Improved substrate matrix adhesion	Pre-reacted	Increased water repellency of finished good	Increased product shelf-life	Low free monomer content	Low VOC emission on finished goods	Improved resistance to punking	Improved binder mix consistency	Increased binder mix processing window	Light color curing	Improved resistance to smoldering	Reduced dust in manufacturing process

Special features:

* Low VOC emissions/A+ label

** Reduce process emissions

*** Allows for shipping uncured insulation material
