

**BAKELITE**  
SYNTHETICS

**Phenolic & Amino Resins**

# **BAKELITE® Laminates**

At BAKELITE SYNTHETICS we pride ourselves on being the partner of choice for paper impregnation technologies. We offer products resins and technical expertise in the following application areas.

Phenolic Surface Films: phenolic and melamine resins for plywood and composite wood panel surface lamination

Decorative High-Pressure Laminates: phenolic and melamine resins for standard, compact, postforming and continuous pressure laminates

Decorative Low-Pressure

Laminates: melamine and urea resins for composite wood panel and plywood surface lamination

Specialty Performance Laminates: methylated melamine resins for highly flexible laminates; phenolic resins for flame retardance; phenolic resins for electrical laminates; resins for ultra-low emissions

Hot Roll Lamination: urea resins for surface lamination of construction products (doors, wall panels) and wood composite panels

Primers, catalysts and complimentary products for custommade solutions

Our experienced, regional representatives also provide individualized technical support to meet your productivity and sustainability targets.
