

BAKELITE
SYNTHETICS

Phenolic & Amino Resins

BAKELITE® Wood Constructions

At BAKELITE SYNTHETICS we are one of the leading suppliers and technology partners of the European plywood and LVL (laminated veneer lumber) industries. We are assisting the industries in the development of new products and implementing these resins on an industrial scale.

We are producing the following resin types:

Plywood: phenolic and melamine urea resins and hardeners

LVL (laminated veneer lumber): phenolic and special melamine resins and hardeners

Specialty performance resins and complimentary products for custom made solutions (scarf joint adhesives, hardeners, catalysts)

Timber construction: phenol – resorcinol resins and hardeners

Our experienced, regional representatives also provide individualized technical support to meet your productivity and sustainability targets.

Next Generation Synthetics
